Diego Martín, el vaquero - Chautauqua

Presented by Angel Vigil: Diego Martín, el vaquero, the Spanish colonial cowboy, is a true American hero. He was the first cowboy to ride the open ranges and sleep under the stars; the first cowboy to tame the wild horses of the plains and deliver vast herds of cattle across great distances; and the first master of the basic eternal cowboy skills—riding and roping. El vaquero was the repository of highly practical and effective Spanish wisdom and experience in the ways of horses and cattle, developed over generations on the open plains of European Spain and New Spain in the Americas. His language gave us the words we now accept as common cowboy “lingo.”

This Chautauqua will be held in the Museum Lower Gallery on June 22 at 1 p.m. The program is free and the general public is invited to attend.

New lower Museum gallery exhibit

The new lower gallery Museum exhibit displays 65 chronological photographs that document the nine months in 1906 that it took to build the Fort Morgan Great Western Sugar plant. The exhibit will run through June 22.
