Subject: *****RES-CHECK TRAINING CHANGE*****

In order to meet all the requirements of the COVID-19 virus, we have decided to offer the Com-Check and Res-Check training as a WEBINAR. This training will be done live on April 24th at 8am. We are breaking this into 2 sessions. Res-Check on April 24th and Com-Check on May 1st and each session will be 2 hours.

If you cannot attend the live webinar, don't worry! We will have it recorded and will post it to our website for you to view any time. We want to encourage our local contractors to review the trainings we provide so that we can be prepared to roll-out the 2018 Energy Code next year!

Join us in a live webinar for an overview of the RESCheck software. Shaunna Mozingo from the Mozingo Code Group, will go through the process of complying with RESCheck and be able to answer any questions you may have.

Please click "Join" WebEx below. If you've never used WebEx Meetings before, you will be able to join as a guest or you can download the application. When using computer audio, it is recommended that you download the application.
