

ADDENDUM 2 – 08/05/2021

Would you accept a bid for a system that is cloud-based if it meets all of your requirements listed in the RFP?

The system would need to be a stand-alone NVR that does not connect to the network.

Would you allow the camera equipment/network switch to be located in front office behind the new TV monitor? Or would you like all equipment in the IT room?

The NVR would be located in the front office same as the current set up.

Would you accept conduit or surface wire molding for wire runs inside the building where there is not access above the ceiling? This would be minimal.

Yes

Do you have an anticipated installation time frame in mind?

Would like the system installed no later November 1, 2021.
